“ My sympathy to Gene's family and friends. I am just now seeing this notice of his passing. Now realizing I myself was in the hospital for the last two weeks in Jan and first few in Feb. I was limited on news. It is with much regret I never got to visit with Gene when in Mt. Vernon. He and I had a issue about a clock [family heirloom of my family] that we wanted to resolve. Gene was kind enough to call me about having the clock. I wish I had had the chance to know him better. I feel he was a kind and honest man.
{PS. For family referance, I am Bernadine's daughter. She was married to Gene's Uncle Paul} RIP Gene, see you on the other side,

“ Gene and Glendall built an addition on my parents home in 1974. There were three of us kids who moved down from Chicago area and we were bored to tears here in the country. Gene made a airplane cart for us to play with with rope to pull to turn right or left and wheels to roll all over. He really made an impression on me when I was 10. I had the biggest crush and always remembered him. I am so sorry for your loss.

“ I met Gene Davis at Freshman Football Practice in the fall of 1958. I have seen him a few times since at Mt.VTHS Class of 1962 Reunions. I didn't know that he helped build the new Valdez Harbor after the town was moved because of the damage it suffered from the 1964 Good Friday Earthquake. I admired Gene's mild mannered conduct. He will be missed. Please accept our condolences for your loss.
